WHAT THE TEST MEASURES

Performance Monitoring

Interpreting tables and charts, assessing profitability and correlation, analysing variances against budget, forecast and prior year, evaluating KPIs, analysing underlying revenue, and deriving revenue, purchasing and staffing requirements.

Management Control

Operational measures and KPIs, established key ratios and relationship measures, budgeting and forecasting, operational risk, capital allocation and credit terms - central elements of management control and business-focused decision support.

Investment Analysis

Investment appraisal and key parameters, present value calculations, break-even analysis, evaluation of investment alternatives, product costing, contribution margin, sensitivity analysis and value-chain analysis.

Excel Functions

Data and logical functions plus conditional calculations, including SUMMA, ANTAL, MEDEL, LETARAD, LETAKOLUMN, DGET, INDEX, PASSA, OM, OCH, ELLER, SUMMA.OM, ANTAL.OM, SUMMA.OMF and ANTAL.OMF.
