

Financial Controller - EN - SV GAAP

Separating Analysts from Accountants

A Financial Controller test in English according to Swedish accounting standards (K2/K3). Designed to distinguish candidates who primarily work with closing of accounts and reporting from those with strong analytical skills and in-depth knowledge of income statements and balance sheets.

WHAT THE TEST MEASURES

Income Statement & Balance Sheet

Presentation formats, asset categories, short- and long-term liabilities, equity, operational performance measures, fund and new issues, free cash flow, provisions, capitalised tax loss carryforwards, comprehensive income, leasing and consolidation principles.

Financial Analysis

Financial ratios, solvency, debt-to-equity and interest coverage ratios, profitability, credit periods, capital binding, the effect of financial leasing, leverage and DuPont relationships, adjusted equity and the impact of working capital on cash flow.

Closing of Accounts

Account reconciliations, accruals, interim accounts, closing VAT accounts, accrual of invoices, recording taxes and inventory, computation of taxable income, and accounting for anticipated and recognised customer losses.

Accounting Theory

Verifications, monthly reconciliations, accrued and prepaid items, revenue and expense definitions, consolidated financial statements, elimination of internal transactions, percentage of completion, accounting principles, cash flow and relevant IFRS/K3 differences.
