

Financial Controller - SV

From Accounting to Analysis

A Financial Controller test in Swedish based on Swedish accounting standards (K2/K3). Designed to distinguish candidates who primarily work with closing of accounts and reporting from those with strong analytical skills and in-depth knowledge of income statements and balance sheets.

 24 QUESTIONS 30 MIN SWEDISH K2 / K3

4 skill areas

 Income Statement & Balance Sheet  Financial Analysis  Closing of Accounts  Accounting Theory 

WHAT THE TEST MEASURES

Income Statement & Balance Sheet

Presentation formats, asset categories, short- and long-term liabilities, equity, operating performance, fund and new share issues, free cash flow, provisions, capitalised tax loss carryforwards, leasing, group accounting and consolidation principles.

Financial Analysis

Financial ratios, solvency, debt-to-equity and interest coverage ratios, profitability, credit periods, capital tied up, finance leasing, leverage and DuPont relationships, adjusted equity and the impact of working capital on cash flow.

Closing of Accounts

Reconciliations, accruals, interim accounts, closing VAT accounts, invoice accruals, recording taxes and inventory, calculation of taxable profit, and accounting for doubtful and confirmed bad debts.

Accounting Theory

Vouchers, monthly reconciliations, accruals, income and expenses, group accounting, eliminations, percentage-of-completion accounting, accounting principles, cash flow analysis and relevant differences between IFRS and K3.
